

**Michael Doherty, MA MD FRCP FHEA (UK)**

Michael Doherty was a scholar of St John's College Cambridge, and completed his undergraduate training at the Middlesex Hospital, London, UK. He was an Arthritis Research UK Rheumatology Research fellow in Bristol and Bath, and is currently Professor of Rheumatology and Head of Academic Rheumatology at the University of Nottingham, UK. His principal research interests are: epidemiological, genetic and clinical aspects of osteoarthritis; community-based clinical trials; gout and calcium pyrophosphate crystal deposition; and evidence-based practice and guideline development.

Professor Doherty is a member of the Curriculum Policy Group at Nottingham University Medical School and was awarded a Lord Dearing prize for teaching and learning in 2001. He has written extensively on musculoskeletal clinical examination skills and developed the original "GALS" screen.

He is a past editor of *Annals of the Rheumatic Diseases* and co-editor of the Oxford textbook *Osteoarthritis*. He has co-chaired European League Against Rheumatism (EULAR) Task Forces for evidence-based recommendations for management and diagnosis of osteoarthritis (knee, hip, hand), gout and calcium pyrophosphate arthritis, was on the Osteoarthritis Research Society International (OARSI) guideline development group for recommendations on knee and hip osteoarthritis, and has been involved as a clinical expert in National Institute for Clinical Excellence (NICE) appraisals relating both to osteoarthritis and gout.
